The office is responsible for inmate transports for the Court to and from other jurisdictions and the Virginia Department of Corrections.

**Corrections:** Corrections encompasses Institutional and Community Corrections.

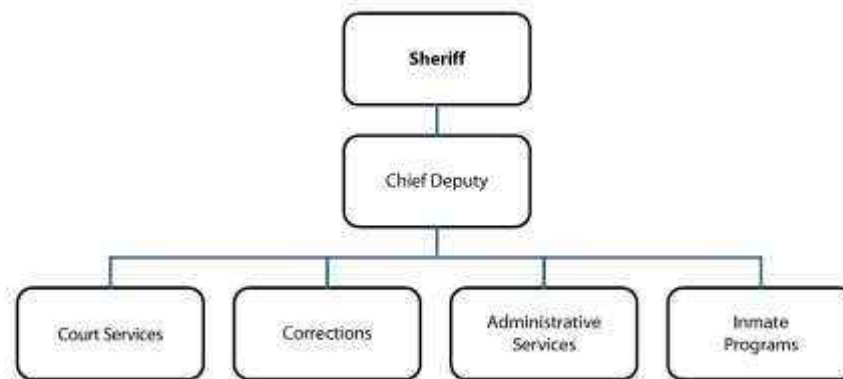

- **Institutional Corrections:** Sworn and civilian staff man and operate the Norfolk Jail. The facility management team handles all maintenance issues, while the inmate management team handles medical and food for residents. Classification provides residents the rules and carefully places inmates in appropriate housing. The security threat unit is responsible for the safety of inmates and staff.
- **Community Corrections:** The Inmate Workforce and Work Release Programs provide an opportunity for qualified inmates to receive credit for fines and court costs, receive job training, earn early release credit, secure paid employment, and be considered for home electronic monitoring. These programs also help reduce jail overcrowding and introduce a work ethic to inmates. The Weekender Work Program allows inmates to provide community service during weekend days as an alternative to serving consecutive days in jail, allowing them to maintain gainful employment.

**Administrative Services:** Sworn and civilian staff responsible for training, grants, Local Inmate Data System (LIDS), information technology, finance, human resources, and community affairs work in the Administrative Services Division. Community affairs include programs and services offered for children and senior residents of Norfolk.

**Inmate Programs:** Our staff provides evidence-based programming such as re-entry programs, GED preparation, Thinking for Change, and cognitive drug treatment programs to try to reduce recidivism and provide an opportunity for inmates to become productive members of society.

The RentingSmart Academy has recently expanded to offer tenant education courses to ensure that renters know and understand their rights and responsibilities. Eviction mitigation will focus on eviction prevention or diversion services to ensure continued viability for tenants and landlords.

<sup>1</sup>Actual amounts reflect expenditures made directly from this budget line. Budgeted amounts may have been transferred to other city departments for expenditure. Actual expenditures for such transfers are reflected in the respective city departments.

<sup>2</sup> The FY 2021 budget carries forward \$850,000 of unspent FY 2019 designated funds to be utilized for resilience projects in FY 2021. The one cent Real Estate Tax designation for FY 2021 was used to fund general city operations in response to the financial impact resulting from the COVID-19 pandemic. FY 2022 funding restores the one cent Real Estate Tax designation for resilience initiatives.

<sup>3</sup> Funds for special programs and sponsorships will transition from Central Appropriations to Outside Agencies in FY 2022.

# OUTSIDE AGENCIES

---

The City of Norfolk recognizes partnerships with outside organizations and agencies are vital to optimally support citywide priorities. These agencies provide services, programming, and events the city cannot provide alone. The city partners directly with outside agencies through funding for operational support or with support for a new initiative. Having a wide range of cultural and entertainment amenities contributes to the economic health of the city and augments its attractiveness as a potential locale for business relocation.

## NORFOLK CONSORTIUM

---

Arts and culture are integral to community attachment and satisfaction in the City of Norfolk. Arts and culture organizations help identify the underlying character, the unique meaning, and value of the city. The city's intrinsic nature is ever changing and evolving to meet the needs of the community. To preserve and enhance this local identity and uniqueness, the Norfolk Consortium was created in FY 2012. Through the Consortium, the city's large event organizations encourage collaborative service delivery, revenue growth, reduce duplication, and co-sponsor large scale events. The Consortium's contribution is invaluable to the city's economic vitality, quality of life, and sense of place. These member organizations define the City of Norfolk as the cultural center of the Hampton Roads region.

Consortium members include: Arts and Entertainment, Chrysler Museum, Cultural Facilities, Norfolk Botanical Garden, Norfolk Commission on the Arts and Humanities, Norfolk Convention and Visitor's Bureau (Visit Norfolk), Norfolk Festevents, Norfolk NATO Festival, Nauticus, Virginia Arts Festival, Virginia Opera, Virginia Stage Company, and Virginia Symphony.

Through a strategic and holistic approach, sponsored activities result in increased revenues and a leveraging of non-city resources. Financial support in FY 2023 is provided through the General Fund and other sources:

# DEBT SERVICE

The city traditionally issues General Obligation (G.O.) bonds to provide funding for a wide variety of general infrastructure improvements that directly help meet basic needs and improve the quality of life of every Norfolk resident. G.O. bonds are a type of borrowing, similar to a home mortgage, used by local governments to finance capital projects such as schools; public safety improvements, including police and fire facilities; street improvements; transportation projects such as new roads and sidewalks; neighborhood improvements like curbs and gutters; economic development, including promoting business growth and vitality; parks, recreation and open space facilities; cultural institutions, including the zoo and museums; and community recreation centers.

The city obtains money for these projects by selling its G.O. bonds to investors, also called bondholders. In exchange, the city pledges to repay what it borrowed (principal), plus interest, over a predetermined number of years. As presented below, debt service refers to the scheduled payments of principal and interest on the city's previously issued G.O. bonds and any new debt service resulting from a planned new issuance of bonds to finance approved capital projects. G.O. bonds are backed by the full faith and credit of the city, meaning that the city commits its full taxing authority to paying bondholders.

The city issues bonds because its capital needs exceed the ability to fund all capital projects with cash or current tax revenues. G.O. bond financing allows the city to spread the substantial costs of funding its capital program over multiple years. This kind of financing also allows the costs of capital projects to be spread over a number of years that better matches the expected useful life so that each generation (current and future) of taxpayers and users contributes a portion for the use of the infrastructure assets financed. Additionally, the Debt Service budget includes funding for the equipment and vehicle acquisition program. This program contains three categories:

- School buses
- City-owned vehicle replacement
- City-owned information technology equipment replacement

In Fiscal Year 2015, a Line of Credit (LOC) financing tool was established as an additional financing mechanism that allows better management of cash flow for capital project financing. A LOC partially funds the city's CIP cashflow needs by providing a low-cost, flexible interim financing option for capital projects and allows the city to draw funds "just-in-time." Use of this mechanism provides the city with greater flexibility regarding the timing of long-term bond issuances.

In FY 2022, the city issued Pension obligation bonds (POBs) to be used for the Norfolk Employee Retirement System. Pension obligation bonds are taxable bonds that can be issued as part of an overall strategy to fund the unfunded portion of the pension liabilities.
